

Indoor Domestic TV Amplifier - DC pass

Ref. 5517

Important Safety Instructions

General installation conditions:

- Before handling or connecting the equipment, please read this manual.
- In order to reduce the risk of fire or electric shock, do not expose the equipment to rain or moisture.
- Do not take the cover off the equipment without disconnecting it from the mains.
- Do not obstruct the equipment's ventilation system.
- Please allow air circulation around the equipment
- The equipment must not come into contact with water or even be splashed by liquids. Do not place containers with water on or near the equipment if it is not adequately protected.
- Do not place the equipment near sources of heat or in excessively moisture conditions.
- Do not place the equipment where it may be affected by strong vibrations or knocks.

How to use the equipment safely:

- The powering supply of this product is: 196-264V~ 50/60Hz.
- If any liquid or object falls inside the equipment, please contact a specialized technician.
- Do not connect the equipment until all the other connections have been made.

Description of the electrical safety symbols:

- To avoid the risk of electric shock, do not open the equipment.

- This symbol indicates that the equipment complies with the safety requirements for class II equipment.

- This symbol indicates that the equipment complies with the CE mark requirements.

- Indoor use only.

Band		VHF/ RADIO	UHF
Frequency	MHz	47 - 232	470 - 862
Output gain	dB	16	
Attenuator	dB	12	
Noise figure	dB	4.5	
Output level (DIN 45004B)	dBμV	> 105	
Band		IR Return Path	
Frequency	MHz	5 - 30	
Gain	dB	6	
Mains voltage alimentation	V~	196 - 264	
Power consumption	W	< 2	
Power at each output	V ---	11V 10mA max.	
Operating temperature	°C	-5 ... 45	
Protection index		IP 20
