

## VHF/UHF modulator Custom analogue channel generation

Home audio/video modulator capable of generating any analogue channel on the MATV band.

---

<b>Ref.</b>	5858
<b>Logical ref.</b>	VM5858
<b>EAN13</b>	8424450139806

---

### Packaging info

---

<b>Box</b>	1 pcs.
------------	--------

---

### Physical data

---

<b>Net weight</b>	227.00 g
<b>Gross volume</b>	0.60 dm <sup>3</sup>
<b>Gross weight</b>	227.00 g
<b>Width</b>	146.00 mm
<b>Height</b>	56.00 mm
<b>Depth</b>	35.00 mm
<b>Main product weight</b>	227.00 g

---

### Highlights

---

- Equipped with an LCD display to show the current channel
- Fully automated manufacturing
- Equipped with gain regulation to generate an equilibrium between the level of the selected channel and the remaining channels in the installation

- Equipped with switch-mode power supply unit that optimizes energy efficiency
- Design based on the use of new generation micro-components, which allowed reducing both device size and power consumption
- The RF loop is compatible with SMATV installations and allows current circulation to power an LNB
- Allows the adjustment of the difference in levels between carriers by regulating the audio level
- Produces a test signal to facilitate the tuning of the generated channel

## Application example
