

FK24 Multi-fiber Cable Single-Mode 24 fibers, Dca Euroclass and UV- resistant LSFH, indoor/outdoor

24-fiber cable with UV-resistant LSFH sheath for indoor and outdoor installation. Divided in 6 micro-modules of 4 fibers each, each with its own LSFH sheath and different colour. This provides a better organization and makes identification easier. Includes water-blocking gel in each micromodule, providing a physical barrier that prevents water from spreading inside the cable. This prevents changes in the optical refractive index and avoids ice formation in freezing environments, reducing damage caused by moisture freezing. The reference 231614 is supplied per metre.
