

## Thermostat with NO Contact 0...60°C for Rack 19"

NO contact thermostat for temperature control inside the racks. When the temperature exceeds a certain threshold (adjustable), the thermostat contact closes activating the ventilation elements connected to it.

Installing a thermostat improves energy efficiency by activating the fans only when necessary. This avoids unnecessary consumption and also provides greater durability to the ventilation system due to the reduction of the operating time.

<b>Ref.</b>	533005
<b>Logical ref.</b>	WR60
<b>EAN13</b>	8424450240281

### Packaging info

<b>Box</b>	1 pcs.
------------	--------

### Physical data

<b>Net weight</b>	45.00 g
<b>Gross volume</b>	0.12 dm <sup>3</sup>
<b>Gross weight</b>	45.00 g
<b>Width</b>	34.00 mm
<b>Height</b>	62.00 mm
<b>Depth</b>	45.00 mm
<b>Main product weight</b>	45.00 g

### Highlights

- NO contact: Normally open. The contact closes when a certain temperature is reached, allowing the passage of current and thus activating the connected elements
- Simple assembly: Clip system with 4 feet, easy to assemble and disassemble. Suitable for 35mm DIN rail, EN 60715
- Wide temperature regulation range from 0 to 60°C
- Made of ABS V0 (S / UL94) flame retardant and highly impact resistant plastic. Protection IP20
- High durability, more than 100,000 cycles
- Grey colour
