

Option WiFi Analyzer (2.4/5GHz) H30Evolution / H30Crystal / H30+ & H30D+ meter

This functionality allows a full analysis of the Wi-Fi band for the automatic detection of all the networks. Each of them is identified by name, and the power of the signal at the access point is also displayed. Two display modes are provided for the user to choose. The “list” mode provides a list of the detected networks with the associated data and power, while the “map” mode represents them on a dual-axis map: power vs. frequency.

Ref.	593250
Logical ref.	H30EUP-WIFI
EAN13	8424450207666

Packaging info

Unit	1 pcs.
