

## User interface customization Service Arantia TV system

Web development service for the customization of the Arantia TV platform interface. Following the previous requirements established by the client, an interface adapted to the specific needs of the establishment is implemented, capable of enhancing the corporate brand and identity. Among the tasks included in this service we can find: the personalization of the welcome message, the adjustment of the grid, the incorporation of images and corporate logos or the integration of widgets or descriptive texts.\*

The duration of this service is established at a maximum of 32 working hours. After the development and approval of the interface, the final version is uploaded to the client server for proper operation.

(\* ) The images, corporate logos and descriptive texts should be provided in advance by the client.
