

Splice Box for Rack 19" 1RU, for 34 "SC" Simplex or "LC" Duplex Adapters

Designed to accommodate SC to SC Simplex or LC to LC Duplex adapters, allowing it to become a FO patch panel.

This Splice Box is ideal for the installation of optical splitters inside it, thus offering the possibility of easily distributing the fiber optic network. By keeping the fibers inside the tray, an organized and safe installation is achieved.

Its use allows having a fixed fiber optic distribution network, to which different signals can be supplied by means of a simple reconnection. Thanks to its wide design, it allows an easy assembly and maintenance of the connections it houses.

Ref.	533189
Logical ref.	UFB34SC-A
EAN13	8424450326206

Packaging info

Box	1 pcs.

Physical data

Net weight	1,300.00 g
Gross volume	4.30 dm ³
Gross weight	1,500.00 g
Width	482.00 mm
Height	44.00 mm
Depth	200.00 mm

**Main product
weight**

1,300.00 g

Highlights

- Resistant material due to steel construction
- Identification of each connector by laser engraved numbering (IN1...IN2) and (1...32)
- Includes 4 screws and 4 nuts for installation in a 19"-rack
- Extremely easy installation and use
- Designed as 1RU
- Compatible with optical splitters with up to 32 output fibers and 2 input fibers
- Black colour (RAL 9005)
