

Power Distribution Unit (PDU) for Rack 19" 1RU, with 8 IEC C13 Outlets

Power distribution unit (PDU) of 8 female IEC C13-type 16A outlets, to provide power supply to equipment installed in Rack 19". The IEC C13 type sockets are especially useful for computer network connections, as they comply with an international standard widely used for computers, servers, switches, peripherals, etc. Allowing different devices to be connected independently of the mains sockets of each device. The power panel is connected to the mains through a Schuko type plug.

It occupies 1RU high and incorporates a light indicator switch with protection cover.

Ref.	533003
Logical ref.	USDL8C13
EAN13	8424450285961

Other features

Height (RU)	1RU

Physical data

Net weight	776.00 g
Gross volume	2.76 dm ³
Gross weight	893.00 g
Width	485.00 mm
Height	50.00 mm
Depth	45.00 mm

**Main product
weight**

776.00 g

Highlights

- High strength and durability: made of aluminium
- Light indicator ON/OFF switch with protection cover
- Extremely easy installation and use
- 8 female IEC C13 outlets (IEC 60320)
- 2m long power cord
- Designed as 1RU
- Includes 4 screws and 4 nuts for installation in a 19"-rack
- Black colour

Technical specifications : Ref. 533003

Number of rack units (RU)		1
Modular spacing (standard)	in	19
Electrical connection type		Outlet
Type of socket		IEC C13
Number of outlets		8
Plug type		Schuko (Type F)
Input voltage	Vac	220 ... 250
Mains frequency		50 Hz / 60 Hz
Max. current	A	16
Max. power	W	3500
Material		Aluminium
Cable length	m	2
Width	in	19.094
Height	in	1.772
Depth	in	1.969
Color		Black
Protection index (IP)		20
