

PMS integration license for VoIP service (VoIP IP PBX and PMS integration gateway needed)

PMS* (Property Management System) integration license into VoIP service. This service is in charge of sending the telephone charges of each room to the PMS for a later billing.

For its proper installation, activation and operation, it is necessary to have a VoIP IP PBX (ref. 77014x) and a PMS integration gateway (ref. 830508) available in the system.

(*) Consult the current list of PMS systems integrated.
