Plinth for Rack 19"

The 19" rack plinth or pedestal is 80 mm high and is used as a base to elevate and stabilize the cabinet above the floor. This additional space allows the installation cabling to be concealed, improving the aesthetics, while also enabling organized cable routing through the rear opening.
The use of a pedestal increases the maximum load capacity of the rack from 600 kg with feet up to 1000 kg.
This plinth is compatible with racks of 800 mm width, with a depth of 800 mm or 1000 mm depending on the reference.

Ref.	533402
Logical ref.	MSRSO81
EAN13	8424450316917

Other features	
Rack depth	1000mm

Packaging info	
Box	1 pcs.

Physical data	
Net weight	10,134.00 g
Gross volume	81.80 dm³
Gross weight	10,134.00 g
Width	1,000.00 mm
Height	800.00 mm
Depth	80.00 mm
Main product weight	10,134.00 g

Highlights

- High strength and durability: made of steel, with a coating based on polyester resins and lead-free pigments
- Easy installation: supplied pre-assembled, only the rack needs to be installed on top
- 80 mm height
- High load capacity: allows compatible racks to reach a maximum load capacity of up to 1000 kg, exceeding the capacity obtained with installation on feet or castors
- Compatibility: with 19" racks of 800x800 mm or 800x1000 mm (depending on the reference)
- Includes the screws required for installation on 19" racks

- Black colour: RAL 9005
