Power Distribution Unit (PDU) for Rack 19'' 1RU with 6 Schuko Outlets, IEC C14 connector and 10 A magneto-thermal circuit breaker

Power strip with 6 Schuko outlets for 19" racks. Provides power supply to equipment installed in cabinets.
It features an IEC C14 plug, allowing direct connection to a UPS with IEC C13 outlets, facilitating integration in installations with IEC connections. Additionally, thanks to its Schuko outlets, it enables conversion from IEC to Schuko connections.
Includes a 10 A miniature circuit breaker that provides electrical protection to the connected equipment. In the event of a current spike, the device will react by automatically opening the circuit, preventing the flow of electricity.
Occupies 1RU in height.
